 Shipping Weight Crated.....140 lbs.

Our Ambition—SERVICE

Norco King Oak Heaters

(PLAIN)

This is the improved King Oak heater. The feed doors and ash pit doors are ground, fitted and equipped with Alaska cold lever handles.

All sizes of the Norco King Oak heaters are made with a full cast iron base and hinged ash pit door.

The top ring is bolted on, and the foot rails are not hung on loose, but are bolted to the fire pot ring.

The ash pit bottom is not made of sheet steel as is commonly used, but **heavy cast iron**.

The plain stove can be equipped with nickel-plated side wings at a slight additional cost.

Orders received for shipment prior to October 1st, will be invoiced as of October 1. This future dating must be noted on your order.

King Oak Heater

(Regular)

The construction of this heater is similar to the Norco King, having equal capacity. As an added feature the swing top on the plain stove is also nickel plated and the feed doors on both styles are equipped with wire drop handles.

The top ring is bolted on, and the foot rails are not hung on loose, but are bolted to the fire pot ring.

The ash pit bottom is not made of sheet steel as is commonly used, but **heavy cast iron**.

The plain stove can also be equipped with nickel plated side wings at a slight additional cost.

An exceptionally well made stove at a low price.

PLAIN KING OAK

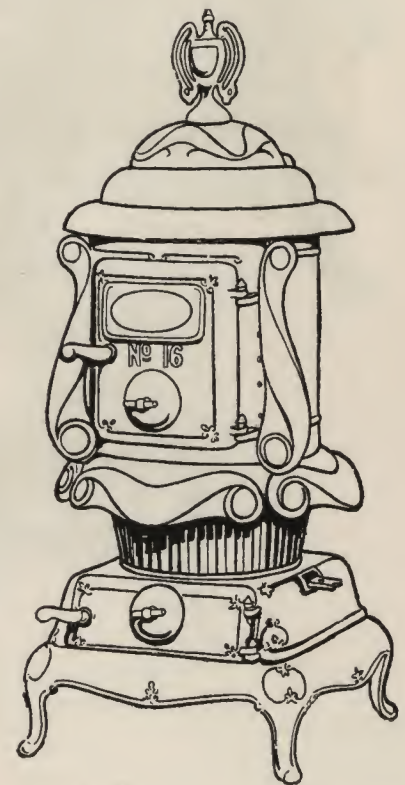

(Steel Bottom)

The construction of this Heater is similar to regular King Oak, having equal heating capacity, with these features to make it competitive: Steel Bottom and Black Swing Top.

Artistic Oak Heater

A very handsome design and construction. Having an all cast urn, nickel side wings, double draft screws on the 18 size and single on the 14 and 16. This stove is of heavier construction than usual, having a very heavy gauge steel drum. Smoke screen behind feed door. Three piece hot blast ring above firepot, and can be furnished with a self feeder on the 16 and 18 size. In three sizes—14, 16 and 18.

Can also be furnished with Cast Iron Drum at slight additional cost.

Our Ambition—SERVICE

Odin Gas Ranges

These newly designed artistic and nationally advertised ranges have the following special features:—

- (1)—A. G. A. "Star" of approval.
- (2)—Highest grade enamel.
- (3)—Economy in gas consumption.
- (4)—Perfection in baking and cooking operation.
- (5)—Constructed of first grade Armeo Iron, Follansbee Steel, with solid cast front.

They can be furnished in right and left ovens with enamel cooking tops, service drawers and base closets. Ovens having non-rustable steel or porcelain lined, as desired. These ranges can be supplied in green, blue, or buff trim.

A good range should demonstrate the following four points:

- (1)—Quality
- (2)—Finish
- (3)—Design
- (4)—Price

The Odin has **all four**. Write for our latest catalog covering the complete Odin line.

Left Hand ovens will always be shipped unless **Right** be specified.

Caloric Cooker *A Leader in Price and Quality*
